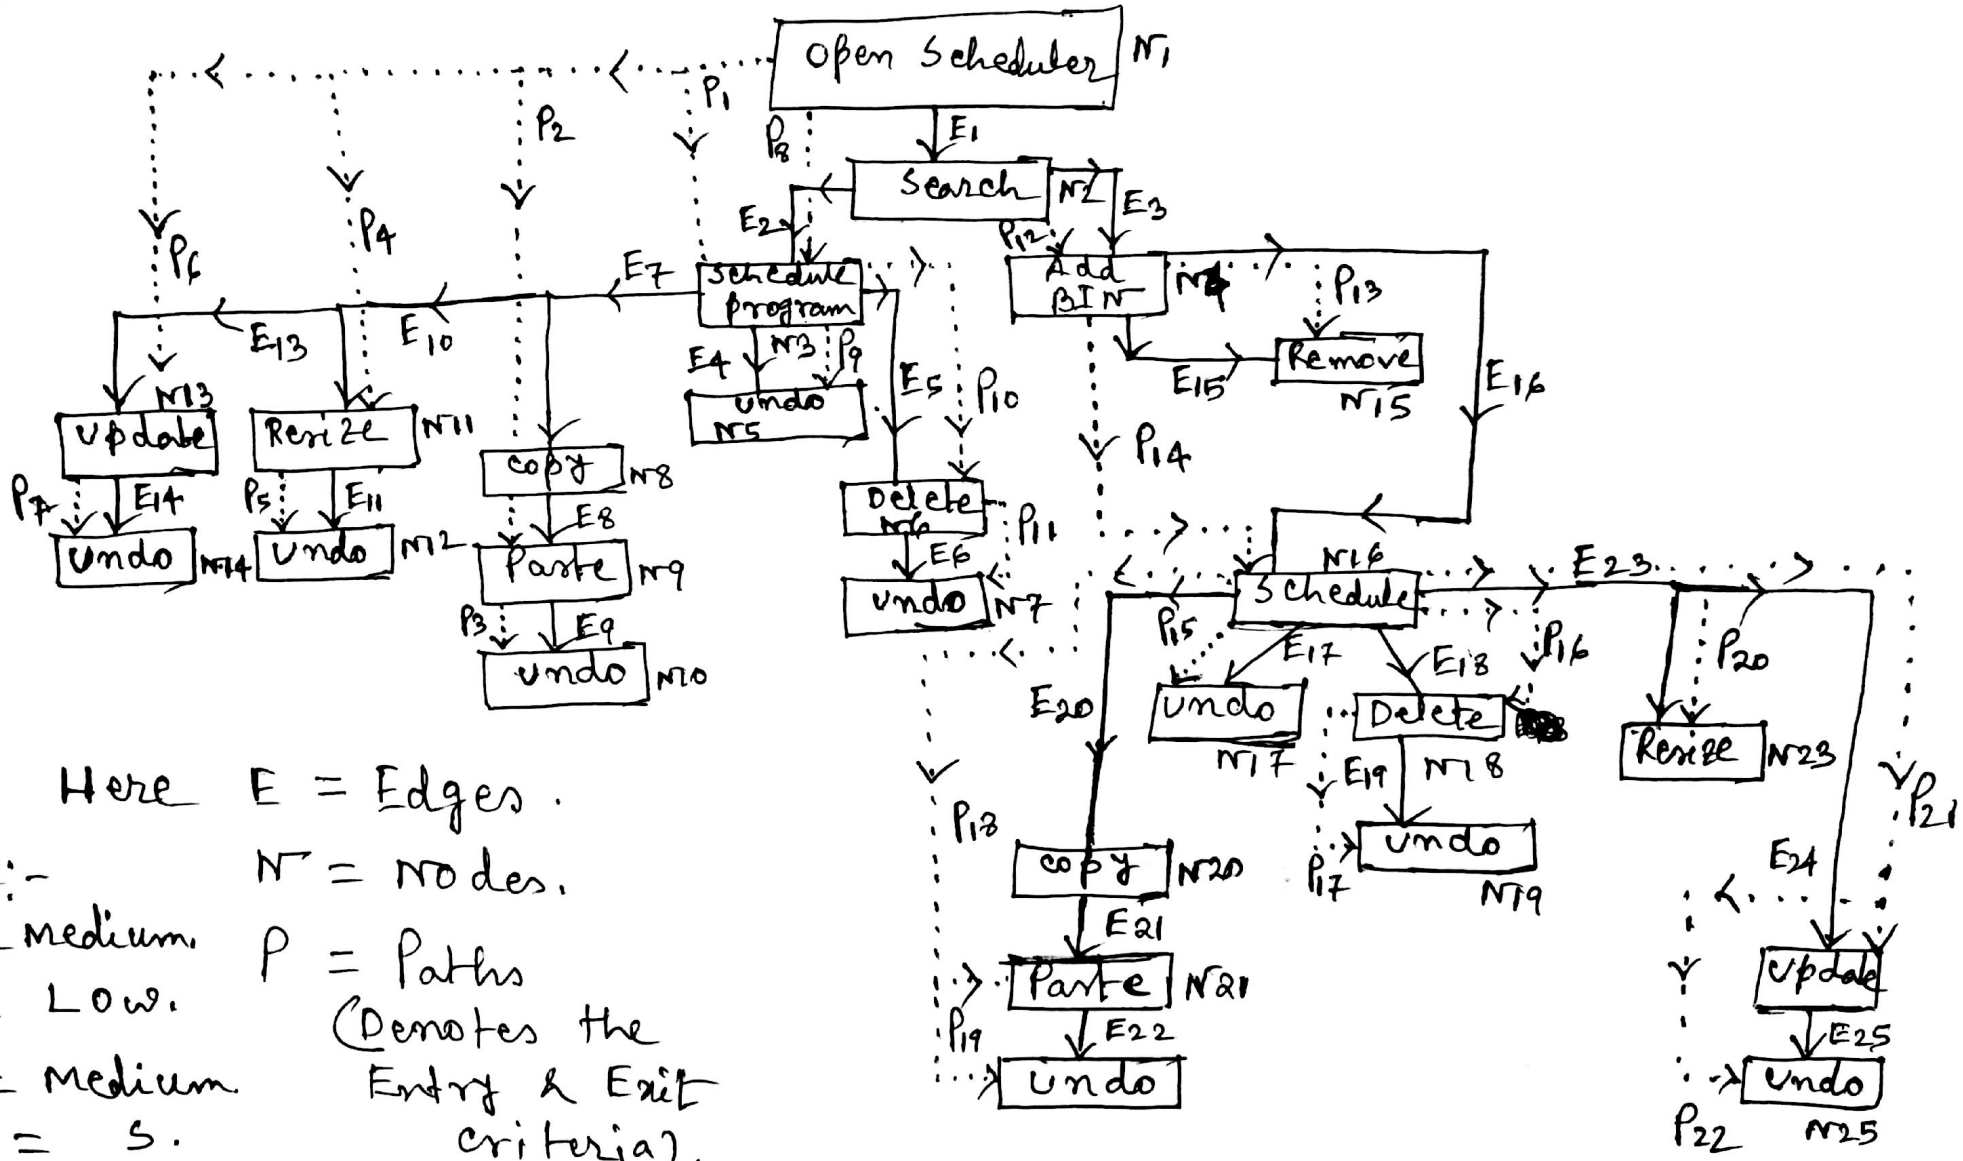
Scanned by CamScanner



Here E = Edges.

N = nodes.

P = Paths (Denotes the Entry & Exit criteria).

Range:-

> 10 = Medium.

< 10 = Low.

> 20 = Medium upto 30 = S.

> 40 = complex.

note :- Here virtual Line denotes the Paths.

Cyclomatic complexity

$M = E - N + 2P$

$= 25 - 25 + 2 \times 22$

$= 0 + 44 = 45$ (complex)
